## **Criterion VI**

### **6. Governance, Leadership and Management**

#### **6.1 State the Vision and Mission of the institution:**

The college being established in 1853, there exists little in the name of a coherent statement of vision and mission that would answer to the higher education scenario in modern India and ascertain the institution's role within it. However, by collating the will and letters of Raja Krishnath of Cossimbazar, one can deduce the vision of a liberal, secular institution where students from all religions and social communities would be treated at par and given the best available western education in the languages, humanities and modern sciences. This dream has been part of the Raja's endeavour to lift his people out of a medieval caste-based education, into the onward march of the Renaissance of Bengal. Added to this is the Government Indenture that would speak for itself. Together, they spell the mission of imparting the highest quality of education to a backward people in a perfectly democratic and secular atmosphere, reaching out to the most downcast.

#### **6.2 Does the Institution have a management information system:**

The college being established in 1853, there exists little in the name of a coherent statement of vision and mission that would answer to the higher education scenario in modern India and ascertain the institution's role within it. However, by collating the will and letters of Raja Krishnath of Cossimbazar, one can deduce the vision of a liberal, secular institution where students from all religions and social communities would be treated at par and given the best available western education in the languages, humanities and modern sciences. This dream has been part of the Raja's endeavour to lift his people out of a medieval caste based education, into the onward march of the Renaissance of Bengal. Added to this is the Government Indenture that would speak for itself. Together, they spell the mission of imparting the highest quality of education to a backward people in a perfectly democratic and secular atmosphere, reaching out to the most downcast. Though the college does not have a modernized MIS in place, collecting, aligning and integrating data is done through a traditional process aided by feedbacks, which generally meets the requirements of government systems and educational upgradation needs. Academic and administrative responsibilities are communicated through general notices, or letters in cases where individuals are concerned. The aforementioned Sub-committees are formed by nominating members from faculty and non – teaching staff and a convener among them. In the first meeting of each such committee, the Principal and Convener delineate the functions and scopes of the committee, which are then discussed until unanimous agreement.
